

Allot Corporate Overview

Our Mission

Allot Ltd. (NASDAQ, TASE: ALLT) is a provider of leading innovative network intelligence and security solutions for service providers worldwide, enhancing value to their customers.

See. Control. Secure.

- Understand exactly what's happening in your network through granular analytics.
- Assure optimal performance, utilization and customer QoE via traffic control and shaping.
- Drive increased revenue and customer satisfaction through network-based security services.
- Comply with government regulations for safe Internet activity.
- Protect local, national and enterprise networks against volumetric DDoS attacks.
- Reduce OPEX and CAPEX via closed loop automation and fully NFV compliant deployments.

Track Record

- Allot's multi-service platforms are deployed by over 500 mobile, fixed and cloud service providers and over 1000 enterprises.
- Our industry leading network-based Security as a Service solution has achieved over 50% penetration and is already used by over 21 million subscribers in Europe.

Unified Customer Experience

Allot collects network, application, usage and security data and turns it into Actionable Intelligence, enabling you to make your networks smart and keep your customers safe.

allot Secure^{NW}

Anywhere, Any Device,
Any Threat Protection

- NetworkSecure
- HomeSecure
- IoT Secure
- DDoS Secure
- EndpointSecure

Allot Secure enables CSPs to offer security services to residential, mobile and business markets that protect IoT and end-user devices. It also protects customer networks and the telco infrastructure from DDoS attacks.

allot Smart^{NW}

Inline, Insightful,
Intelligent QoE

- SmartVisibility
- SmartTraffic QoE
- SmartPCC
- SmartRegulator

Allot Smart solutions give CSPs and enterprises the ability to see, classify and optimize network traffic to ensure delivery of attractive services at the highest QoE, while reducing both operational and capital expenditures.
